ASSOCIATED PRESS TELEGRAMS.

HAVAS' AGENCY

London, 3rd.

The *Times* says that it is humiliating for the British nation and for the Government to have abandoned General Gordon in the Soudan. The newspapers of the city insist on the necessity of immediately sending troops in sufficient numbers to maintain British supremacy in that region.

Berlin, 3rd.

The strike of master carpenters reported some days ago is daily decreasing in importance. Many men have returned to their work, and it is thought the others will do the same.

THE OPENING OF CONGRESS.

To-day Congress opens, and although, as yet, the President's Message on the state of the country is a sealed chapter, still we all are aware of the unexampled prosperity of the country, and of the wondrous march and improvement in everything since this time last year. Marching on as we are going, this country, at the close of this century, that is to say, sixteen years ahead, will be one of the most prominent in the world's list. The population of this city will certainly be over a million, whilst that of the nation at large will be little short of ten millions. With peace, immigration and good government, the Argentine Republic is destined to reach a greatness that will yet astonish the world.

Our readers must bear in mind that up to the present the Plate has not enjoyed that tidal wave of capital and emigration that has favoured the U. States, Canada, Australia and New Zealand, but, we believe, it is at hand. So far there is a sneaking current of immigrants. This year that current shows a steady rise, and, it is probable, that we shall mark 100,000 new arrivals before the end of December. Still, for a country such as this, with so rich and fertile a soil, and so many millions head of cattle, 100,000 emigrants in the year is but a mere bagatelle, and we hope yet to see these figures advance to at least 250,000 per annum.

As regards fresh capital, there is a good deal of new money flowing in, and, what between land purchases for account of friends at home, new estancias, new railways, &c., we calculate that within the last year the new money that came into the country must be from 2½ to 3 millions sterling. If, however, the people in Europe only knew of the cheapness of everything out here, in the estancia line, we should certainly have ten times this amount seeking investment in the Plate.

The opening of Congress is a m opportune time to remind President Roca, his Ministers and his legislators, that the country is so prosperous there is all the greater need of much prudence and the severest politieal wisdom. All burning questions calculated to divide the people should be avoided, all violent changes eschewed. Prosperity is ever the time of danger, and the Plate is so prosperous there is all the greater need of supreme caution.

Three years have now elapsed since Gen Roca opened his first Congress, and within that short term in a nation's life how splendidly has this country progressed. We can ask for no greater blessing on the land than that in the succeeding years of his office the Republic may continue the same march.

We shall reserve this pleasing subject for further comment, until we hold before our readers the picture traced by H.E. of the country's situation in his Message; but all the joy-bells of the country may well be rung on the opening solemnization. We never had a Congress opened under a more grateful retrospect of the closing fiscal year or under brighter auspices of a stil more glorious future.

"SUD AMERICA."

We salute our new colleague with every wish for its success, and hope that 23 years hence it will have the same pleasing and satisfactory retrospect as the *Standard*. Our colleague starts, Minerva-like, from the brains of an opposition that owes its creation to the new turn in Provincial affairs. We shall not advance one word on the prospects of this new political party, since already in its infancy it commands influence and respect, owing to the genius of its leaders and the acknowledged patriotism of its members. As a new political organ the, *Sud America* will perhaps have severer difficulties to overcome than as a merely new evening newspaper. The political status of this country is very firmly set at present, and it would be unwise to loosen those moorings which some of the chief editors of our new colleague so successfully made fast. We want, however, in the capital of the Republic, and in the empire province of the Plate, a thoroughly well-edited opposition paper. General Roca and Governor D'Amico should be the first subscribers to so invaluable an organ: and if our new colleague meets tha want, and bravely upholds a prudent and judicious opposition, to correct abuses, then may we accept the first copy of this journal as a new pillar of support to the institutions of a free and enlightened people.

Viva the *Sud America*!

SPORTING INTELLIGENCE.

The fine weather of Sunday attracted a large concourse of people on the Palermo course to witness the races, twice postponed since the 20th of last month, on account of rain. The sun shone brightly on the assembled multitude, the Grand Stand was full in every part, and the immediate vicinity of the Sport enclosure, presented all the time a scene of great excitement and animation. The great event of the day was the unexpected victory of Tronera, a dark one, whose merits were known to but a few favoured ones, who managed with great ability to keep their knowledge to themselves, which is shown by the fact that out of more than two thousand tickets, given out by the Sport, only 23 were put down to Tronera, each of which came to be worth the extraordinary price of 98 dollars. Semiramis, another outsider cleverly carried off the palm in the fillies' race, although Consuelo ran as if she could have headed her had the race lasted another twenty yards. The knowing ones had backed Madre Selva heavily, but not only was she beaten in the race coming in third, but a complaint of a foul having been made by the jockey of Santa Rita against her jockey which was duly proved before the committee, she was put last and her jockey excluded from running on the course for two years. Pan did not put in appearance at the post, and Terminacion had an easy victim of Uncle Tom. Nana, as had been generally anticipated, beat Waxy, and Gladiador won the last race without much effort.

Betting, Consuelo slightly favourite, Madreselva and Santa Rita were freely backed, even against the field, 10 to 1 against Semiramis. Madreselva and Santa Rita took the lead and shot ahead of the rest. Consuelo followed by Semiramis, leading the reserve and the bend home were altogether and Semiramis crept to the front; at the distance Consuelo, which had been laying back, was pushed and passed Madreselva and Santa Rita but failed to overtake Semiramis, who won cleverly by a length. Sport gave 10.95.

There was not much betting as Gladiador seemed to have it all his own way and won without difficulty. Sport gave 2.65.

UNIVERSAL INTERNATIONAL EXHIBITION.

It is proposed to hold during the year 1885 a Universal Exhibition at Antwerp which will embrace all industrial products, all goods or merchandize giving rise to commercial transactions and all objects and appliances connected with the interests of navigation.

Due to private enterprise, this Exhibition has obtained, in addition to the patronage of His Most Gracious Majesty the King of the Belgians, the substantial aid of the Government, as well as the cordial support of the Municipality of Antwerp.

The Exhibition will be managed by a Company (Limited) whose capital has been subscribed by all classes of the population in Antwerp.

The object of their combined efforts is to increase and extend the foreign trade of Belgium and of the Port of Antwerp. By calling in our midst the manufacturers and merchante of all parts of the world and thus enabling them to witness the gigantic works, in the constrnction of which the Belgian Government and the City of Antwerp have, within the last five years, spent over one hundred millions of francs (£4,000,000) and which have now made our port one of the safest and best organised in the world, the esteem and sympathy which Belgium has earned amongst all civilised nations will, we doubt not, be strengthened and increased.

In this age of universal competition the best and most rapid way of developing business to the general advantage is to show to foreigners and to all our friends abroad the incessant progress of Belgian industry and on the other hand to set before the eyes of our own manufacturers and merchants the most noteworthy products of foreign industry. In this manner existing relations will be extended and new connections, with the various nations of the old and new world, formed and encouraged.

The present moment is a favourable one especially as regards Antwerp. Our great mercantile centre is now classed as one of the principal ports of Europe, and, in consequence of the marvellous transformation it has of late undergone, is called to higher destinies still.

We therefore invite all manufacturers and traders to come to Antwerp. In our commercial metropolis, so hospitable to all and, thanks to its geographical situation, so easily reached, their goods will meet with an immense public, well able to appreciate them, and they themselves will find an easy and practical way of extending their business connections.

The approaching Exhibition has already received encouraging promises of support from abroad, and, limititing our enumeration to our nearest neighbours and friends in Europe, we may state that England, France, Germany, Holland, Italy, Austria, Switzerland, Russia, Spain and Portugal will contribute an important share to the Exhibition.

The great facilities offered by our regular lines of trading vessels with the various States of America—whose commercial itnercourse with Antwerp has attained such remarkable proportions of late years—will enable those countries also to take an active part in it. The far East, the Colonies in general and even Africa will occupy a place proportionate to the interest which their peoples inspire in our conntry.

Notwithstanding the large number of Exhibitions which have taken place of late years, our manufacturers are well aware that it will be to their interest to appear to the best advantage at this international gathering. Depending mainly upon its export trade, industrial Belgium will find this to be an excellent opportunity of making its products known to the consumers of the whole civilised world, and the cooperation of our leading manufacturers has already been secured.

The Exhibition will be opened in May 1885.

The building will be erected on the site formerly occupied by the old Citadel, in close proximity to the Scheldt and to the new embankment. Part of one of the adjacent docks will be set apart for the nautical Exhibition, while the Southern Railway Station will be appropriated to the Machinery Department.

Simultaneously with the Universal Exhibition, an Exhibition of Pictures and Sculpture will be opened in a new building in its immediate neighbourhood under the auspices of the "Société de l'Encouragement des Beaux Arts," and an appeal for contributions will be made to the artists of all countries. Antwerp, being the metropolis of Art in Belgium, will consider it a point of honour to make the Exhibition of 1885 exceptionally attractive.

Belgian Horticlture will contribute to this great festival of Industry, Commerce and Arts, by the Exhibiton of its world famed products.

A special section reserved for the various appliances of Electricity will constitute one of the most interesting features of the Exhibition.

In order to encourage the development of new ideas, a Bill will be introduced into the Belgian Chambers during the present session for the purpose of guaranteeing inventions susceptible of being patented, as well as all trade-marks admitted to the Exhibition.

The Executive Committee are actively engaged in preparing the classification of exhibits, the general regulations and the terms of admission, particulars respecting which will soon be laid before the public by special circular.

Knowing by experience the advantage to intending exhibitors of being made aware beforehand of the expenses to which they will be liable, the Committee propose to fix the prices of accommodation in such a manner as to include therein all charges for warehousing, packing, general decoration, management and superintendence.

The promoters of the Exhibition, it is needless to say, are not actuated by interested motives. Their task is a higher and nobler one, and the object they have in view is of a more permanent character. Their aim, we repeat it, is that of facilitating international exchanges, of opening fresh markets to the products of Belgian industry, and of the Belgian soil, and of thus promoting the general interests.

Under these circumstances the Executive Committee trust that the appeal they are about to make will everywhere meet with a warm response.

SALADEROS AND GRASERIAS.

In the last number of the *Royal Society Magazine* we find a detailed statement of the monthly working of the saladeros and graserias in this province during the year 1882. Although these returns are a year behind time, still, in the absence of any fresher statistics we must accept them to guide us in our judgment of this industry which years ago was the greatest in the Plate. The following is a list of those establishments in this province—

1 Francisco Arias, Brandzen.
2 Campodonico y Ca., Bandero.
3 Nicasio Arrascaete, Chascomus.
4 Imaz y River, Chascomus.
5 Bordes y Ca., Chascomus.
6 Luis Lomban, Chivilcoy.
7 Lazaro Repetto, Ensenada.
8 Costas y Becker, Ensenada.
9 Juan Borisso y Ca., Ensenada.
10 Pedro Luro, Ajo.
11 Gibson hermano, Ajo.
12 Ramos Garcia y Ca, Ajo.
13 Juan F. Font, Lujan.
14 Lazaro Repetto, Moron.
15 Juan B. Repetto, Magdalena.
16 Santiago Rocca, Magdalena.
17 Podesta hermanos, Magdalena.
18 Manuel Fresco, Mercedes.
19 Maria Real e hijo, Mercedes.
20 Luis Lomban, Mercedes.
21 Santiago Benzolea, San Nicolas.
22 Tomas Salas, San Pedro.
23 Pedro Bouchez, Pueyrredon.
24 Artaganetia herm., Zarate.
25 M. Romero y Ca., Zarate.

And the total killing for the year 1882 was as follows:—

Cows and novillos.....	186,447
Mares.....	104,962
Sheep.....	245,080

These small figures will instruct our readers how this industry has declined. We do remember when in the graseria season of a single winter the number of sheep and capones killed reached several millions. The new export of mutton will now replace the graseria, and so best; we hope next year to see this trade export at least 100,000 carcases per month, but we must indeed feel no surprise at the price of cattle falling when we see that the saladeros consume so few. We look forward, however, to the export of beef as well as mutton, and all we need is a little more industry on the part of our farmers to grow more maize and alfalfa, and fatten the animals for the London market.

The Dalton's Mails.

London, April 7th.

Amid general indications of mourning the Duke of Albany was buried on Saturday at St. George's Chapel, Windsor, in the presence of an illustrious assembly, which included the Queen, the Princess of Wales, Princesses Christian, Louise and Beatrice, the Grand Duchess of Mecklenburg-Strelitz, and Princesss Frederica of Hanover. The body, which had lain all night in the Albert Memorial Chapel, was followed by the Prince of Wales as chief mourner, who was supported by the Crown Prince of Germany, the Grand Duke of Hesse, Prince Christian, the Prince of Waldeck-Pyrmont, the Duke of Cambridge, Prince Albert Victor, Prince Edward of Saxe-Weimar, Prince Louis of Battenberg, and other Royal and distinguished persons. The funeral service was read by the Dean of Windsor, and at its close Garter-King-at-arms proclaimed the style and titles of his late Royal Highdess. Throughout London there were many signs of mourning. The great bell of St. Paul's was tolled from half-past eleven to half-past twelve, the time corresponding with the solemn ceremonial at Windsor, and a muffled peal was rung between eight and nine in the evening, this attracting thousands of listeners. Amongst the pulpit references of yesterday were those of the Archbishop of York at the Chapel Royal, St. James's, Canon Liddon at St. Paul's and Canon Rowsell, Dean Bradley, and Canon Duckworth in Westminster Abbey.

Our Athens Correspondent informs us that an impressive funeral service was held at St. Paul's Church on Saturday at half-past eleven, the hour of the Duke of Albany's funeral at Windsor. The service, which was held at the request of the Duke of Edinburgh, was attended by his Royal Highness, as well as the King and Queen of Greece, and the Grand Duke Paul of Russia.

Our Berlin Correspondent telegraphs to us that a funeral service was held on Saturday, in the private chapel of the Crown Prince's palace at Berlin. It was attended by the Crown Princess and all the ladies of the Court. The Rev. Mr. Earle, the English chaplain, officiated.

Our Alexandria Correspondent telegraphs that Nubar Pacha tendered his resignation to the Khedive yesterday afternoon. The latter did not then accept it, but it is stated that he probably will do so finally. Nubar's reason is, that he finds it impossible to cooperate with Mr. Clifford Lloyd.

Our Correspondent at Varna informs us that Musurus Pacha reports that his negotiations with regard to the administration of Egypt which still continue with the English Government have so far led to no result.

Our Correspondent at Halifax, Nova Scotia, telegraphs to us particulars of the stranding of the steamer Daniel Steinmann on Sambro Island. He appends a statement by the captain, in which the latter states that he mistook the Sambro light for she Chedabucto light and steered towards it. Only eight out of 129 persons were saved, and all the women and children on board were lost.

In the division upon Mr. Justin Mc Carthy's motion respecting the constitution of the Irish magistracy, the minority in its favour was made up of 26 Liberals, one Conservative (Mr. Bellingham), and 34 members of the Home Rule party. Four of the Liberals sit for Irish constituencies, and as Mr. Bellingham represents county Louth, 39 Irish members supported the motion. The majority against it included more than 40 Conservatives, many of whom sit for Irish constituencies.

On Saturday Mr. Sydney Buxton, M. P., presided at a meeting of managers of London Board Schools, at the Society of Arts, the chief aim being to establish some mode of co-operation between the 1,000 managers of the 362 London Board Schools, so as to bring home to them their community of interests and a sense of their responsibility, as well as to infuse into their work the system and method necessary for the efficient supervision of the schools. Mr. Forester, in speaking to the report, incidentally alluded to the question of over-pressure, and said he did not deny that there was some foundation for the statement that the school work was too severe. Mr. Mundella, in pointing out the importance of a thorough system of efficient management, drew attention to the duty which the new code imposed upon the managers. The subject of over-pressure was very much in the air. There were children who were only half-fed and too feeble and to badly nourished to be capable of performing the ordinary tasks. It was for the manager to know every such child and its surroundings, and advise the teacher whether he should withold it from examination.

Mr. Henry George was entertained on Saturday evening at a farewell dinner at the Criterion, the Rev. Stewart Headlam occupying the chair.

The remains of the late Mr. Nicholas Trubner, the well-known publisher, were interred on Saturday afternoon in Highgate Cementery, in the presence of a numerous and representative gathering of friends and relatives.

The Oxford University boat crew had a spin on the river on Saturday, but did little work, while the Cambridge men practised starts during the whole of their morning's row. The betting is now 5 to 4 in favour of the Light Blues.

Mr. W. Gregory's Chicard won the Grand Handicap Hurdle race at Croydon on Saturday, and amongst the other results of the running were the following:—Juvenile Plate, Mr. J. Bate's f by Hilarious; Great "Welcomes" Handicap, Mr. Childwick's Incendiary; Wickham Plate Handicap, Mr. G. Lambton's Hilda II., Croydon Auction Two-Year-Old Race, Mr. Nightingale's Exquisite; Selling Welter Plate, Mr. Craven's Larker; Corinthian Welter Handicap, Mr. T. R. Hut's Orangeman.

The Stock Exchange was closed on Saturday.

THE STATE OF THE SOUDAN.

Cairo, April 6 (Evening).

Hussein Pacha Khalifa telegraphs that all the available roads beyond Berber are blocked and occupied by the rebels. He adds that it is now quite impossible to forward telegrams for Khartoum beyond Berber by dromedaries as hitherto, and states that the tribes between Shendy and Khartoum are in open rebellion, and in constant communication with the Richarich tribe, whose rising may be momentarily expected. Hussein Pacha fears that Berber and Dongola will be invested by the rebels before long.

No news has been received from Gen. Gordon since March 23rd.

Souakim, April 5th.

Mahomed Said with several hitherto hostile tribes, arrived here to-day, and expressed his willingness to negotiate for peace. He reports that Osman Digna has gone to Kordofan.

The tribes who have been subdued in the vicinity of this city outnumber the tribes who are still hostile.

Six natives have arrived here from Kassala, and report that when they left all was quite at that place.

Cairo, April 8th.

The Gordon Highlanders arrived at Suez this morning from Souakim, and the remainder of the expeditionary force will reach that place within forty-eight hours. Eight trains are waiting at Suez to convey the troops to Cairo.

ALARMING NEWS FROM GORDON.

SORTIE OF THE KHARTOUM GARRISON

DISGRACEFUL COWARDICE AND FLIGHT.

Cairo, March 30.

Sir Evelyn Baring received yesterday a message, via Berber, from General Gordon, dated the 17th. On the 16th the General sent a body of Egyptians and Bashi Bazouks against the rebels at Halfiyeh, north-east of Khartoum, across the Blue Nile. The enemy was in considerable force, mounted and unmounted. At the first onrush of the Soudanese horsemen, General Gordon's troops bolted, the disastrous result being that 200 men were killed or made prisoners, that two mounted (? mountain) guns were captured by the enemy, and that a number of wounded were brought into the stockade.

According to another report the Bashi Bazouks behaved the worst. They broke before any attempt could be made to form square, so that the Soudanese never came near the Egyptians while in that formation. Reports are current to-day making the affair much less serious, but the above statement is official.

The result has, I understand, greatly discouraged General Gordon, who, henceforth, will never trust his troops on the offensive, or in the open against the Soudanese.

It seems thought officially that General Gordon can hold out, but the surmise is gravely doubted by those who possess the latest knowledge of the state of affairs at Khartoum. It is no secret that the position is most critical, and it is doubtful whether with such troops General Gordon could hold the fort, much less the town. As the fighting was begun a fortnight ago the enemy, emboldened by success, may now possess the town, and Gordon may be besieged in the fort.

A messenger from El Obeid represents the Mahdi as growing more and more unpopular. The troops and people of the town were ready to rise against, while the Kababish and Tayella tribes continue hostile to him. Some military men here think that a body of cavalry could cross the Korosko desert and relieve General Gordon; and that, failing this, an expedition on a large scale must be undertaken in October, supposing that General Gordon is capable of holding out so long.

It is unofficially stated that Sennaar cannot resist more than another month.

(Reuter's Telegram.)

Alexandria, March 30.

"A report has been received from Khartoum that on the 16th inst. Gordon Pasha marched out from the town with 3,000 men belonging to the garrison, two mountain guns, and some mounted Bashi-Bazouks, against the rebels, who were threatening the place. Three steamers accompanied the force. The rebels were encountered near Halfiyeh. Sixty of the enemy on horseback charged the Bashi-Bazouks, who turned and fled. Seeing this the infantry became seized with panic, and likewise took to flight in great disorder. They were pursued by the sixty men who made the first onslaught, and a few more of the enemy on camels.

Despite this check, Gordon Pasha declares Khartoum to be quite safe."

PARIS LETTER.

(*From our own Correspondent.*)

March, 24th.

The particle 'de' is especially run after by tradesmen retired from business. It does the same duty as, 'von' in German, 'van' in Dutch, 'ski' in Polish, and 'off' or 'ieff' in Slav. Bouchard de Montmorency, means the Lord of Montmorency, but 'de' Brown 'de' Jones, or 'de' Robinson, is simply ridiculous—a peacock's feather for a 'parvenu.' Some of the noblest names of France, as Chabot, Damas, etc., never employ the particle. The law of 1858 punishes those who falsely take 'de,' as well as a title. Madame de Sevigne's grandson called himself without any right, Marquis de Grignan, to escape paying taxes; and in Bretagne, a nobleman when he went into business had to put aside his title, and pay for the right to resume it. Aristocracy to-day in France is only a fictitious 'relief' for a social position. Neither the law nor the manners of the nation recognise titles as possessing any privileges. A duke has to serve as a private soldier, side by side with his valet; a 'guinea pig' with his coachman. "I am the first of my name, and you the last of yours," was once the proud response of the Chevalier de Rohan. Not bad was the retort of a general of the First Republic: "We have no ancestors: we are ancestors." More philosophical is Tenny: son:

From yon blue heaven above us bent
The grand old gard'ner and his wife
Smile at the claims of long descent.

Despite her internal anxieties, of Communists, who banquet the 18th March 1871 as model patriots; of chronic strikes from Marseilles to Auzin; of slack times for Parisian industry: of anarchists waiting for a chance to reform society; of the Comte de Paris, whose partisans sap the Republic like moles; of the Prince Napoleon, who claims to be poor, but honest, after training, during eighteen years, forty millions of francs in the way of income and demands to be emperor from his likeness to his great uncle; of Naundorff, who claims to be the legitimate successor of Louis XVII; of the budget that seems to defy balancing; of the vigorous war at Madagascar; of the pursuit of the Chinese after letting them slip at Bacninh as at Sontay—well, despite all these cares, the French find time to poke more than malignant fun at John Bull's exhibiting in Egypt, "the fears of the brave and the follies of the wise." The terrible mess and muddle in the Nile country cause Englishmen here many a deep blush. Has the strong arm of England lost its cunning? Has she no statesman—

pleased with the danger when the waves ran high,
A daring pilot in extremity.

As China makes no sign, and her soldiers prefer that discretion which is the better part of valor, she must accept the bed she has made for herself, till her army can come up to the heroism of the Teb Arabs. France will impose her scientific frontiers, which term among diplomatists means indefinite expansion when France thinks fit. The opinion is, that the Chinese have no fight in them. That is very disappointing for the Germans, who were anxious to see the soldiers of the third republic at work. "A vaincre sans péril, on triomphe sans gloire."

A terrible accident has occurred in the Rue St. Denis, which has caused the death of two police officers, and more or less grievously wounded a score of persons, to say nothing of blowing a shop to atoms. A large lamp shop had the hatit of throwing its "wastes" into an old deep well; in its oil-room, the droppings had penetrated the floor; in time neighbouring, unused cellars became filled with inflammable gases, a kind of artificial fire-damp. It was in following up a preliminary explosion in a cellar that the terrible accident occurred. The deceased police officer had the imprudence to investigate with a lighted candle. Henceforth only electric lamps are to be employed during such examinations, and all oil and lamp cellars are being overhauled.

A demi-mondian, occupying a palace, has shot herself. She was disgusted at her sinful life.

A lady brought an action against the Sorbonne authorities; she could not sleep owing to the cries of animals undergoing vivisection. The magistrate dismissed the demand, alleging the experiments were for the public good.

Mid-Lent Day being fine, induced the lovers of fun to come out and see the funny folks. The fancy costumes were few, and there was nothing original in the characters. The processions were limited to advertising: One house had specimens of its furniture on carts, preceded by bands of music, and a squadron of cavalry representing the leading characters invented by Dumas père in his novels and dramas.

Madlle. Nevada has scored a great success, in Donizetti's Lucia, at the Italiens, despite the rant of Edgardo (Gayarre). In the Fountain air and mad scene, she was perfect, and the flute accompaniment was charming. A monumental bouquet was carried to her; she bowed, plucked off a rosebud, and handed it to the flute player in the orchestra.

The Costumes' Museum has received a collection of every-day and Sunday clothing, from Patagonia; stiff gales howl in that country, and to keep on the windy side of care, these costumes in feathers are made to cover but one half of the body at a time, and to be turned, to face the wind. Had Dr. Mackean such a dress, the cigar end, thrown from a window, would not have fallen between his shirt collar and neck. Turn coats are good.

EDITOR'S TABLE

Contrary to expectation, Sunday turned out a brilliantly fine day, and the races at Palermo came off. We give particulars in another column. Tronera's victory, in the Premio Productos, caused great surprise: he was sold at an auction for one gold dollar, and even his owner laid against him. One book maker won 4,000 pats. by this colt's victory. The second prize in this race was won by Pegaso, and if he had been properly ridden, he would have won. We must congratulate his owner and breeder, Mr. John Malcolm, junr., of the Lujan stud.

The Royal Mail Steamer La Plata sailed yesterday. Mr. George Cooper, Manager of the Southern Railway, and his family, were among the passengers. They left the Boca for the Outer Roads, in the steamer Stella, hosts of friends attending to see them off and wish them God-speed.

Mr. and Miss Tudor, who came out from England in the Dalton, arrived here yesterday morning in the Flaxman. We welcome them cordially.

Lord Frederic Hamilton, of Her Majesty's Legation here, will start for England soon: he is only awaiting the arrival of his successor, Mr. Petre, a relative of our former Minister in this country. Lord Frederic's departure will be much regretted in social circles; his affability, wit and accomplishments making him a general favourite.

Mr. Thomas Gibson has sent to Madame Pearson, President of the Damas de Beneficencia, the generous donation of 500 National dollars, for the Blind Asylum about to be founded by the Society.

We paid a visit yesterday to the Turf Agency and found our friend Mr. Craufurd enveloped in clients, settling for the previous day's races. His first "remate" will be held in the Bodega on Thursday next 8th inst., and there is no doubt it will be well attended. The latest sporting news is that a match has been arranged between Star and Nil Admirari for one thousand Nationals a side, to be run at Palermo on the last Sunday of June, distance 1,200 metres, weight 140 lbs.

The English performances at the Politeama on Saturday were a great success. At that in the afternoon, the house was crowded with hundreds of youngsters, from three to thirteen years of age, their blue eyes, fair hair, ruddy cheeks and tall stature for their years, speaking their race. The performance was really excellent, some of the feats being quite astounding. The Shetland ponies, being countrymen, were the favourites of the hour, but only one little "dot" responded to Mr. Carlo's invitation to take a round of the ring on their backs. At night the theatre was also crowded. The children's performance was such a success, that Messrs. Carlo could not make a mistake in giving another next Saturday.

The kalendar does us out of a holiday this year, as the glorious "Veinte-Cinco" will fall on Sunday.

We received our new colleague, *The Messenger*, yesterday, and feel great pleasure in welcoming it to the Editorial Bus and wishing it the best success. There are now four papers published in English in this city—more than any other nationalities, with five times our number (Argentines, of course, excluded) can boast of. *The Messenger* is well got up and arranged, and is written in an easy and agreeable style. It shows its tact in having no particular programme. All will agree with it that the cliques into which the English-speaking communities are split up here is a great disadvantage to all of them, and the *Messenger's* desire to improve on this state of things should be cordially supported.

The *Nacion's* private wire from Europe reports 50 men killed by the fall of a wall at Whitney, and Barclay's shipyard in Glasgow destroyed by fire—£100,000 damage.

Our "distinguido huesped," the poet D'Amicis, has gone up to Rosario, Cordoba and Tucuman, in each of which places he will be lionised, speechified and fed to the top of his bent. It will be simply impossible for him to enjoy his trip under such circumstances.

Hurrah! Mr. Cassels proposes to illuminate Plaza Victoria electrically during the May Fetes. He will erect 29 foci, equal to 12,000 candles each, and all for the very moderate amount of 2,000 Nats. By all means let him do it, and give the people something new to look at.

"Man's inhumanity to man" is nothing to what he inflicts on woman occasionally. A lovely young girl of 18 committed suicide on Friday night. She was for some time engaged to be married to a young man in the Custom House, and the wedding was fixed for Friday night. On the morning of that day she received a letter from her betrothed, breaking off the marriage on some frivolous pretext, and, the same evening, the heartless scoundrel married another girl. The rejected girl at once took a dose of match-heads in water, and was at death's door in a few hours.

The *Nacional* gave a grand turn-out on Sunday to every soul connected with the paper. About 10 o'clock two "carros de mudanza" full of newsboys, 'peones,' etc. started from the office in Calle Bolivar for Palermo, followed by a string of carriages with the editors, director, reporters, etc. At Palermo they all had a royal feed. The 'fiesta' was intended more for the newsboys who sell the paper than for the rest, but all enjoyed themselves immensely.

The *Vida Porteña* is pushing its way. Its last number is capital. The chapter on Noses is worthy of Sterne, and that on Colds in the Head is equally good.

We have received from Wilmington, Del, a full description of the sumptuous palace cars built there for the Andine railway, as also the special car for the President of the Republic, said to be the grandest that any ruler on earth—from the Tzar of all the Russias to the Khedive—has to travel in. We hold them for a future issue, as we have no space to-day.

A cargo of 'bananas' from Brazil was put in quarantine yesterday. It's enough to make all the horses in the Politeama die laughing; all the more, as the vessel was anchored in the Riachuelo and discharging when she was sent back to quarantine in the Outer Roads.

Mrs. Acevedo, of 46 Piedad, won 9,500 Nats. in the Mendoza Lottery on Saturday.

Monsieur Lamothe cannot make much complaint of the "law's delays." He has been sentenced, or is about to be sentenced, to three years' imprisonment. Few criminal cases are decided so rapidly in these countries.

Charles' English Hotel

BOA-VISTA

TIJUCA

Rio de Janeiro.

WHYTE'S HOTEL, Tijuca, having been leased to M. Lafourcade of the Hotel dos Estrangeiros, Rio de Janeiro, the late manager (gerente) of Whyte's Hotel, Mrs. Charles, has with her husband taken the former "Hotel Victoria," Boa-Vista, and will re-open it on the 15th January 1884 as CHARLES' ENGLISH HOTEL.

It is situated close to the Green or Square called "Boa-Vista" on the very summit of the pass leading from Rio to Whyte's Hotel. It is a most salubrious position in the midst of beautiful mountain and forest scenery, has a bath with a plentiful water supply, very extensive grounds and is within five minutes walk of the fine waterfall Cascatinha in the forest of Tijuca.

Diligences to and from the termination of the Tramway (bond) pass the entrance to the Hotel twenty times a day.

It will be Mr and Mrs Charles' endeavour to give satisfaction to all who may honour them with their custom.

A Derangement of the Liver.

THE CAUSE OF DISEASE IN THE

STOMACH, KIDNEYS, AND Nervous System.

Below will be found a brief summary of a Lecture upon the Liver, delivered before the Eclectic College of Medecine, by

Dr. J. Haydock

The Liver has been known as the great blood-maker and blood-purifier of the circulation. From its size and spongy structure, it plays a most important part in the animal economy, as regards assimilation and nutrition. Food taken in the mouth and acted upon by the digestive organs of the stomach is converted into Glucose and Peptone, and in these forms enters the Portal vein. Here, by the action of the liver, these substances are converted into a form of sugar and pass out of the liver by a large vein, called the Hepatic vain, into the great circulation. The new material now formed serves two purposes: viz: the maintenance of heat in the body and assisting in the cell growth of the system.

Dr. Murchison says "The composition of bile and its secretion is very complex. It is constantly being secreted by the liver, and, increasing suddenly before eating, gradually decreases as soon as the appetite is satisfied and feeding ceases." Now, if this most important organ of the body becomes torpid, or the passage of bile interfered with, emaciation and disease ensue. I note eight marked peculiarities that now occur, and which we all know off:—

1. The patient complains of a feeling of weight and fullness of the stomach.
2. Distension of the bowels by wind.
3. Heartburn.
4. A feeling of weariness, pains in the limbs and great sleepiness after meals.
5. A bad taste in the mouth, especially in the morning, and furred tongue.
6. Constipation, with an occasional attack of diarrhœa.
7. Headache in front of head.
8. Depression of spirits and great melancholy, with lassitude and a disposition to leave everything for to-morrow.

All of the above symptoms go to show functional derangement of the liver; and now comes the great importance of any error made as to the condition of the patient. He should immediately provide himself with a Liver Stimulant, the most common form of which is a Pill. Daily experience shows that this, when the Pill is compounded properly, is the readiest mode of inciting and promoting the action of the Liver, and can be almost always relied on. I have devoted many years of my life, as many of you now before me know, to compounding a Pill that will act readily and systematically as a Bilious remedy. I do not believe in great purgatives, and therefore have made a Pill, one of which is an active and thorough dose. I have called it

Dr. Haydock's New Liver Pill

(SUGAR COATED)

One Pill is a Dose! One Pill is a Dose!

For all Diseases of the Kidneys, Retention of the Urine, Dr. Haydock's New Liver Pills are a perfect cure. One Pill will satisfy the most skeptical.

For Female Diseases, Nervous Prostration, Weakness, General Lassitude, Want of Appetite and Sick Headache, Dr. Haydock's New Liver Pills, will be found an Effectual Remedy.

They are universal in their effects, and a cure can almost always be guaranteed.

Each vial contains Twenty Pills. One Pill is a Dose. Price Twenty-five cents.

For sale by all Druggists.

Every Pill is Sugar-Coated. If your druggist does not keep them, we will mail them free to any address on receipt of 25 cents. Five vials for $1.00. Buy at once. Do not Deal.

CAUTION—To secure the genuine Haydock's Pills, observe that the signature of H. Francis, Agent for the United States, is written on every dozen package. Purchase none without this.

As Dr. Haydock's Liver Pills are entirely different from the 212 kinds now in the market any skeptic can have a sample bottle sent him free on receipt of his name and address.

Cedulas A	100½
Cedulas E	80½
Cedulas F	86
National Bank Shares....	145½
Nat. Bank Certificados..	61

The market looked awfully bullish this morning and much excitement prevailed round the ring as Series E jumped to 90 and Shares rose to 46½. The very firm feeling that has crept into the speculation is most remarkable; many thought that the spurt on Saturday night was a mere flash in the pan; they were deceived, as to-day's operations shewed. Four thousand shares of the National Bank were sold for the end of the month, rates closing only ¼ under Saturday night's closing quotation. The whole Bolsa is on the rise, and all brokers, with few exceptions, are kicking the ball. The market opened this morning with a strong upward feeling, and rates advanced from 146 to 146½; a weak reaction then set in, rates falling to 145½, but closing firm at 145¾. One hundred shares were sold for the end of June at 147½, and a few changed hands for cash at 145¾. The Scrip of the Bank was in steady demand all the morning, and the Italians' friend bought freely everything offered at 61. About 1,000 Certificates were sold at 61 for cash and to-morrow, and at 61½ for the end of the month. The market closed firm, but the feeling was no longer so strong as in the morning. The bulls, and their number is legion, talk of carrying the share to 160 this month, and indeed there appear to be very few obstacles in the way of their efforts. The speculation is also attracting into its vortex many outsiders who had kept aloof for months and thought the shares dear at 120; they now appear to think them cheap at the present rather high price.

The speculation in Cedulas continues steady. Series E reached 90 to-day; for a long time the stock has not touched this figure. A few thousand Series A changed hands for cash at 100½; 53,000 Series E were sold cash at 89½ and 90; 100,000 were sold for the end of the month at 89½; it is worthy of notice that the stock should be more in demand for cash than for the end of the month, and at a higher quotation. Over 100,000 Series F were sold cash, for to-morrow and end of the month at 86 firm.

1,200 Municipal Bonds changed hands at 80 o/o; 50 Old Gas Shares were sold at 1,600 ⅝ each, and 15,000 National 5 o/o at 75 o/o.

The money market rules very easy and a plethora of money is offering on the Bolsa. The exchange market shews no alteration; small operations reported this morning at current rates. There are rumors of some important business on the "tapis".

Dr. A. Fernandez is drawing up a petition signed by our leading barraqueros, consignatarios, merchants, estancieros and others, requesting the National Government to open to public traffic the Mercedes-Chacabuco section of the Transandine Railway. This section of the line may be considered completed and the estancieros of the vicinity clamor for the opening of the line.

The following were the sales at the ring during official hours:—

Cedulas—
For cash A 5,000 at 100½
For cash E 53,000 at 89¾-90-89¾
For May 31st E 100,000 at 89¾
For cash F 40,000 at 86
For May 6th F 2,000 at 86
For May 31st F 50,000 at 86
Sales, 250,000
National Bank Shares—
For cash 70 at 145-¾
For May 31st 4,000 at 146-½-146-145¾-¾-½-¾
For June 30th 100 at 147½
Sales, 4,170
National Bank Certificates, 30 o/o paid—
For cash 50 at $61
For May 6th 300 at 61
For May 31st 300 at 61½
Sales, 650
Municipal Bonds—
For cash 1,200 at 80
Primitive Gas Shares—
For cash 50 at $1,600 ⅝
National Bonds 1881—
For cash 15,000 at 75

The President of the Provincial Bank, Sr. Uriburu, and Dr. Campbell, President of the Mortgage Bank, both have sent in their resignations, but we believe that it is only 'pro forma' on the change of Government and neither will be accepted. Mr. Dibur, the popular accountant of the Provincial Government, has resigned and persists in his resignation, as we believe it is impossible for him to move out to La Plata.

We heard from most reliable source to-day that telegram had come from London ordering the immediate commencement of the railway works from Sta. Fé to the colonies. It is certainly about time that these works should be commenced, and we hope they will be pushed ahead. The term for beginning the works expires in August.

The total amount of bar silver that arrived at the station Tucuman in the month of April was 37,364 Marks, worth 300,000 pats. Rather a respectable amount.

To-day we received a visit from a party who is intimate with our new Governor and who assures us that we read H.E.'s speech upside down, and that nothing could be further from his views than the non-construction of the Trenquelauquen R.R. We are indeed happy to discover our mistake in this matter, as the whole country clamors for this railway; we shall publish in a few days the Governor's speech in English, and our readers can then judge for themselves the interpretation we put upon his words.

The sale of 1,500 head of cattle, 10 o/o novillos, at 165 ⅝ 'al corte' is reported; also a troop of novillos at 300 and several thousand capones at 43.

The total killing of the present faena in this Province to date is but 81,000 head against 148,000 head for same time last year; what a great falling off.

In letters received from Rosario we are happy to learn that at last there is a movement up there to prolong the Western Railway of Santa Fé from Candelaria to Venado Tuerto; it is certainly about time that a move in that direction be made; had the works been continued after the inauguration last November the locomotive would now be running past Mr. Turner's house and through the Loreto camps, carrying materials for Clark's Transandine Railway, 16,000 tons of which are lying helplessly in Rosario. The National Government ought to help Mr. Casado to prolong his railway, as it opens up a new and very rich country and the proper site for new colonies.

Plans of Messrs Bulrich's lands 32 leagues West of Bahia Blanca were scattered this morning over the tables of the Bolsa like Sybelline leaves. The auction is to come off this afternoon.

Yesterday the Argentine Consul General in London, Mr. Alfred Lumb, paid a visit to the new Provincial capital La Plata, and was pleased and surprised at the immense improvements going on there. La Plata is indeed a surprise to everyone, and we hope it will be given time to grow and develope. Mr. Lumb is well pleased with all the great changes he notes in Buenos Aires and very truthfully remarks that our weak Municipal point now is the pavement.

Mr. Crawford, C. E. who built the B. Aires Great Southern Railway to Chascomus and who surveyed for the Government of Buenos Aires, the first line of Railway across the Andes has just published a very interesting book on this country, and he advises us that he has sent us out a box with a number of presentation copies for all his old friends, whose names when we receive the box we shall publish. Mr. Crawford writes to us from Ballyshannon, Ireland, is in good health and spirits and still preserves the most lively interest in this country.

Governor D'Amico has named Dr. Achaval his Minister of Government, and Dr Grigo his Minister of Finance. Both gentlemen are well-known to the public and their nomination points to a continuance of the policy pursued by ex-Governor Rocha.

The R.M.S. La Plata left to-day with a heavy mail, 45 saloon passengers, 15 2nd class and 70 third class passengers, had a fine trip to the Outer Roads.

Some exchange passed to-day at 5.02 on Genoa and 47⅛ on London.

The Flaxmann brings £30,000 stg. for the great Liebig Company. The R.M.S. Mondego brings £50,000 stg. for private parties.

The Royal Mail Steamship Company will inaugurate a new route to the United States from Rio de Janeiro; the company will issue here through tickets in combination with the steamers that leave this port on the 29th of each month, and tickets to England via New York. This is an excellent combination and one that will meet a long felt want. The Guadiana will inaugurate the new route, starting from Rio.

All the machinery of the Trieste shipbuilding yard, which was recently closed, has been offered to the Argentine Government. The machinery has the reputation of being the most perfect in the world, and it appears that the offer has a probability of acceptance. The Argentine Government has now in course of construction in Trieste a splendid ironclad corvette, to be called the San Martin. She will be the most powerful war engine South of the line.

Telegrams received from London announce the suspension of the Oriental Bank Corporation, London, it closed its doors on Saturday. About a month ago there was a kind of run on this bank, but it then made a good stand, and the shares recovered, but for the last 6 years the bank has been in a bad way, its business was chiefly with the East, and had no connection whatever with this market, but it had relations with Valparaiso, and we believe the Bank of Valparaiso drew on it, so that holders of West Coast bills in this market may possibly be affected by the suspension. Its paid up capital was 1½ millions sterling, and its deposits averaged close on 8 millions sterling. Last year, although it earned for the half year £110,272, it paid no dividend, and its reserve fund was only about £13,000. The suspension will doubtless affect many English houses doing business with the East, and we suppose, will be felt in the London market; here the affair has no interest beyond that of general financial news.

It is rumoured that a large amount of the Cedulas recently remitted to Europe has been sold by the Bank at 91 o/o. This rumour was current on the Bolsa and appears to have some foundation.

Fifty Argentine Gas Shares were sold to-day ex-dividendo (15 o/o) at 102 o/o; one hundred were sold for the end of June at 105.

The market ruled flat during afterhours; little business was transacted and the market closed with sellers of Shares

BANCO HIPOTECARIO

Esta abierto al servicio público todos los dias de trabajo desde las 10 de la mañana hasta las 4 de la tarde.

Presta sobre hipoteca con reembolso á largos plazos.

Por el valor del prestamo de cedulas hipotecarias que producen una renta igual al interes que cobra el Banco.

El valor del inmueble hipotecado no debe ser menor de $f 2000 ni el prestamo menos de $f.500.

Los prestamos hipotecarios no pueden exceder de la mitad del valor del inmueble.

El interesado se obligara a pagar una anualidad que dure todo el termino del contrato. La anualidad se compone del interes del capital prestado, del fondo destinado á amortizarlo y de la comision del Banco. La anualidad se divide en trimestres, y las cedulas que al presente da el Establecimiento son:—

Serie E.

Dura 20 años 100 dias 6 o/o de interes, 2 o/o de amortizacion y 1 o/o de comision.

Pagadas las anualidades convenidas por todo el tiempo del contrato, queda la hipoteca redimida, y libre el deudor de las obligaciones hacia el Banco. El deudor podra libertar el inmueble, en todo o parte, anticipandose el contrato.

El que pretendiese prestamos del Banco se presentara por escrito, designando el inmueble que ofrece en hipoteca de una manera precisa, acompañando los titulos de propiedad, los boletos de contribucion directa y espresando al mismo tiempo su estension el gravamen, o los gravamenes que deben ser levantados simultaneamente que se constituya el credito hipotecario. En la Secretaria encontraran el formulario y las tablas de amortizacion.

Los deudores por trimestres haran las entregas de 8 a 15 de Enero, 8 a 15 de Abril, 8 a 15 de Junio, 8 a 15 de Octubre.

Con el fondo cobrado por amortizacion, se rescataran cedulas por sorteos a la par, y con anticipacion de un trimestre.

Las ventas de las cedulas trimestrales las pagara el Banco de 1 a 15 de Enero, de 1 a 15 de Abril, de 1 a 15 de Junio y de 1 a 15 de Octubre.

El Banco podra servir de intermediario gratuito entre el capitalista y el hipotecario para la colocacion comercial de las Cedulas. A este objeto recibira depositos sin interes, que para su colocacion tendran la prelacion con que entraron al Banco.—Estos depositos pasaran al Banco de la Provincia.

El mismo Banco hipotecario recibe sus cedulas en deposito gratuito, dando al depositante una libreta que servira de certificado del deposito.

El deposito se admite desde una cedula de $f.50 que es el minimum de las que emite el Establecimiento.

EDITOR'S TABLE.

Continued from 1st page)

A kind subscriber sent us yesterday the following curious paragraph, cut from a home paper:—

"The Insect Market.—The mania for collecting which afflicts men of wealth from time to time in regard to old china or books, or some other department of art, is apparently about to evince its presence amongst students of nature, usually reckoned to be quite above such filthy lucre influences. We learn that at the sale of the collection of butterflies and moths which belonged to the late Dr Harper, that took place in London on the 20th and 21st ult., upwards of £1000 was realised. A swallow-tailed butterfly brought £4 5s, a peacock butterfly £4 10s, and a white admiral £3. These specimens were what collectors called 'choice varieties,' differing from the normal type in some slight re-arrangement of the colours. A "sharp competition" took place for a little clearwing moth that a farthing might have covered out of sight, and it was eventually knocked down at £3 5s. Four dozen specimens of the ghost moth from Shetland were sold at £10 10s. A series of the tiger moth, sold in lots, fetched a total of £92; the lots, consisting of ten specimens cash, ran from £6 6s. to £7 7s. each. Various rare moths went at from £5 5s. each down to £1 each. This does not look like a "depression in trade" at any rate!"

The Argentine gunboat Uruguay sailed at last for Europe on Sunday. She will call first at St. Vincent, then at the Cove of Cork, and then at Liverpool, where she will be overhauled, and the officers will have plenty of shore leave.

The Inspector General of Theatres, Mr Davila, has sent in his long-expected report. He considers the Colon Theatre not perfectly safe, as a larger watertank, to extinguish fire, is required; he says there is no danger of the grand lustre falling and braining half the people in the pit. The Teatro Nacional also requires a larger tank. The Opera House is delared to be the most dangerous theatre in town; it has no water to speak of, and some of the columns supporting the building are giving way. Mr D. recommends that it be closed until properly repaired. The Politeama is declared all right. The Variedades requires the lustre to be better secured. The Alegria ditto. The Goldoni is as bad as or worse than the Opera House.

Governor D'Amico, it is said, intends to split the Administration of the Western Railway into three distinct parts, to ensure better management, as the line is now too large for the Head Office to manage properly. Nonsense! The London and North Western Railway, with over £22,000,000 stg. capital, is managed from the Head Office. On the 1st June all the offices of the Western offices will be removed to La Plata.

The papers announce a divorce case that will shortly be heard. The husband is the petitioner, and his complaint is that his fair consort is a member of so many Beneficencia societies that she is never at home, and cannot, therefore, attend as she ought to her children and household duties, the result being that he gets detestably bad dinners, the house is as dirty as a 'conventillo,' the servants do as they like, and his life is a burden to him.

The news from Paraguay is that they would like some of the rain we have had here, as a terrible drought prevails in that country, and all the 'arroyos' are as dry as a miller's wig.

Flores is far the sprightliest suburb of B. Aires now, as almost every night there is a 'swarry' or gathering of some kind, and all of the most agreeable description. The Skating Rink is at present the centre of attraction. There is a good band in attendance, and the boxes are always illumined with the smiling beauty of the Village maidens. With the British Minister also resident there, Flores will soon have no rival.

A Frenchman named Abadie committed suicide on Sunday by an application of cold lead from a bull-dog revolver. The poor fellow suffered from incurable attacks of asthma and heart-disease, and adopted this method, the only one, he thought, of assuaging the pain. Dealh was instantaneous. He leaves two children, and an "almacen" at the corner of Suipacha and Santa Fe.

The butchers, as a rule, have so much the best of it that up to the present they have kept extraordinarily quiet. We are afraid that they have put their feet in it now by protesting against the new imposts, instead of charging it to the public, as they usually do. The conscientious butchers belong to the Rivadavia market.

Galloping on horseback in the streets, and especially across the 'boca calles,' should be strictly prohibited and punished if disregarded. On Sunday a man had his leg and arm broken by coming in collision with a man and horse at full gallop at the corner of a square. The fellow, of course, escaped. Nobody suspected for a moment that he would be arrested. If it is even a tramway driver that causes a collision, the sequence always is his escape; though how he could escape if anyone wished to stop him is more than we can well see.

Ex-Governor Rocha is going to Congress again. He will be named Senator for Buenos Aires.

Arrangements have been made for a Portuguese dramatic company to give performances in this city next spring. We believe this will be the first time that Portuguese will have been heard on the stage in Buenos Aires.

One of the fashions in New York is for a young women to have a photograph taken of her hand, and present it as a souvenir to her intimate friends.

Dr. Gould's report on the work done in the Cordoba Observatory last year and during part of the present one has been sent in to Government. It is very long, and convincing proof of the great, constant and invaluable services rendered to this country in particular and science in general by the talented Director and his staff. Dr Gould's labours are keenly watched and followed by all the great astronomers of the world, amongst whom he occupies such a prominent place.

Remataremos con la base de 2 ps. m/n oro la hectarea, por orden terminante de su dueño y condiciones que se estidulan mas abajo.

Cuatro leguas mas de 1519 cuadras cuadradas, de otra dividida en lotes de media legua, con opcion a otro lote o a toda. Estos campos estan situados a 80 leguas al Oeste proximamente de Buenos Aires y sobre la linea del gran ferro carril del Pacifico, cuyas rieles llegan ya cerca de Junin: lindan con los denominados campos del Fortin Gainza, de los Sres. Salas y Cernadas, de los cuales estos Sres. han vendido una fraccion al precio de 10,000$ la legua cuadrada.

Los campos que venderemos quedan a 8 leguas del Fortin Gainza Posta de la galera, teniendo por lindero al Sr Don Jose Olivo, que tiene su campo poblado con 3,000 vacas, y ademas con los Sres. Oostendorp, Cesario, Runsiman, Grueben, Llorenti y otros.

Fue mensurado judicialmente el año 1877, vuelta a medir el año pasado, mojonandose entonces con mojones de fierro por el agrimensor Sr. Rodriguez.

Las tierras son ricas en negra rejetal y muy abundantes en pastos, siendo estos mezclados.

El agua se encuentra gradualmente a 2 o 3 metros de profundidad y existen alli jagueles de rica agua. Las condiciones para el pago son comodisimas, pues reconociendo cada legua 78,000 m/c uno, dos y tres años de plazo, con el interes anual del 7 o/o, el comprador solo entregara al contado la diferencia entre el precio de compra y el valor de las letras. Queremos aqui recordar a los interesados los campos del Loreto y Venado Tuerto, que hacen apenas 2 años que eran desiertos y hoy puede decirse que son Colonias; tal es el aumento de pobladores que han ido a establecerse alli.

Estos campos que ofrecemos hoy, sino en mejores condiciones, cuando menos en iguales; aquellos valen hoy 12 a 16,000 pesos fuertes la legua, estos los ofrecemos por una tercera parte.

Los pastos son dulces, muy abundantes en gramilla y porotillos, conaguadas permamentes.

Estos campos son conocidos como muy especiales por su situacion alto y la calidad de sus tierras y son la continuacion de los renombrados campos de Loreto.

Están en comunicacion rapida con el Rosario y quedarà sobre la prolongacion del ferro carril Oeste Santafecino de "La Candelaria" à la Colonia "Carlota". Todas las tierras en aquella zona estan situadas à la formacion de grandes colonias que como se sabe son las riquezas de la Provincia de Santa Fé.

La base para la venta es 8000 ps. m/n. que es muy baja, pues hacen dos años que los campos del Loreto se vendieron aproximadamente à ese precio, estando protestada su venta endebidamente sinò se habria obtenido mas de aquel precio.

KILLS BUGS,
FLEAS,
MOTHS,
BEETLES,

THIS POWDER is quite HARMLESS to ANIMAL LIFE, but is unrivalled in destroying FLEAS, BUGS, COCKROACHES, BEETLES, MOTHS IN FURS, and every other species of insect. Sportsmen will find this invaluable for destroying fleas in their dogs, as also ladies for their pet dogs.

THIS ARTICLE has found so GREAT a SALE that it has tempted others to vend a so-called article in imitation. The PUBLIC are CAUTIONED that the tins of the genuine powder bear the autograph of THOMAS KEATING. Sold in tins only.
